

Cut2D Point - Revised Website Brief

B2B Distributor-Focused (NOT End Consumer) + Premium Positioning

CRITICAL SHIFT #1: AUDIENCE CHANGE

Previous: Manufacturing facility managers / Production engineers (end users) **NEW:** Distributors, resellers, system integrators, supply chain partners

Why This Changes Everything:

- Distributors care about **margins, reseller support, training programs, warranty/liability**
 - Distributors need **competitive positioning** vs. other suppliers
 - Distributors want **case studies showing customer demand** in their territory
 - Distributors want **easy ways to demo** to their customers
 - Distributors care about **brand prestige** (can they sell this proudly?)
 - End-user ROI data is still important, but framed differently (helps distributors pitch to THEIR customers)
-

CRITICAL SHIFT #2: PREMIUM/LUXURY POSITIONING

Core Message:

"Upgrade Your Customers to Professional-Grade Precision"

Currently: Everyone uses manual shears (the old way, inefficient, accepted) **Your Positioning:** Electric is the UPGRADE, the status symbol, the mark of a serious operation

Why This Matters:

- Manual shears are the baseline (everyone has them, cheap, commodity)
- Electric shear = **leap forward** (professional, efficient, premium)
- Premium = Higher margins for distributors
- Premium = Easier to pitch to progressive customers
- Premium = Brand differentiation (not competing on price)

Design/Tone Shifts for Premium:

- Remove "industrial" brutalism → Add **elegance**
 - Remove cost-focus language → Add **capability** language
 - White space > dense information
 - Refined, understated design (not flashy)
 - Testimonials from prestigious customers
 - Showcase the POWER of the upgrade (not just efficiency)
-

UPDATED HOMEPAGE STRUCTURE (For Distributors)

SECTION 1: HERO - "THE UPGRADE"

Headline:

INTRODUCE YOUR CUSTOMERS
TO THE NEXT LEVEL

Subheadline:

Electric precision cutting. Where professionals go
when manual shears can't keep pace.

Tone Notes:

- Aspirational (not scary, not cheap)
- Positions electric as the "professional choice"
- "Where professionals go" = status
- "Can't keep pace" = problem with current solutions

Hero Video (NEW): See separate spec below

CTA Buttons:

- "Explore Distributor Program" (blue primary)
- "Request Sales Materials" (outlined secondary)

Trust Signal Below Buttons:

Trusted by 200+ distributors | 500+ end customers
ISO 9001 | 5-Year Warranty | Global Support

SECTION 2: WHY UPGRADE TO ELECTRIC

NOT: "Benefits of efficiency" **YES:** "Why Your Customers Need This"

3 Cards:

CARD 1: Competitive Edge

Headline: "Your Customers Need an Edge"
Text: "Manual shears are a commodity. Electric precision is what separates professional shops from the rest. Offer them the upgrade."

CARD 2: Margin Opportunity

Headline: "Higher-Margin Sales"
Text: "Position electric cutting as a premium service. Customers pay for quality. You profit from the margin."

CARD 3: Easy Sell

Headline: "Easy Customer Conversion"
Text: "45% faster production, 23% less scrap, ROI in 8-12 months. Your customers will thank you. And come back for more."

SECTION 3: THE THREE SOLUTIONS (3-Card Grid)

Same product cards, but **reframed for distributors:**

PRODUCT 1: Electric Shear

- Image
- Subheadline: "Your Premium Offering"
- "Margin Opportunity: High | Customer Demand: Growing"
- Key specs

- "Request Demo" + "Download Spec Sheet"

PRODUCT 2: Manual Shear

- Image
- Subheadline: "The Reliable Standard"
- "Margin Opportunity: Medium | Customer Demand: Steady"
- Key specs
- "Request Demo" + "Download Spec Sheet"

PRODUCT 3: Cornermate Table

- Image
 - Subheadline: "The Premium Solution"
 - "Margin Opportunity: Highest | Customer Demand: Growing"
 - Key specs
 - "Request Demo" + "Download Spec Sheet"
-

SECTION 4: DISTRIBUTOR SUCCESS STORIES

NEW Section (Replace generic testimonials):

Not just "customer testimonials" → **"Distributor Case Studies"**

CASE STUDY 1:

Headline: "Industrial Supply Partner XYZ"

How They Sold 20+ Electric Shear Units in 6 Months

"Our customers were looking for a way to modernize. Cut2D Point's electric shear gave us the solution and the margin we needed. Customers love it. We're expanding the partnership."

– Sales Manager, Industrial Supply XYZ

CASE STUDY 2:

"System Integrator ABC"

Built a Complete Precision Cutting Suite

"We integrated all three Cut2D Point products into our solution. Our customers get complete flexibility. We get sustainable margins and customer loyalty."

– CEO, System Integrator ABC

SECTION 5: DISTRIBUTOR PROGRAM BENEFITS

NEW Section (Not on original brief):

BECOME A CUT2D POINT DISTRIBUTOR

- ✓ Competitive Margins (20-30% typical)
- ✓ Sales & Marketing Support (co-branded materials, case studies)
- ✓ Technical Training (certify your team)
- ✓ Demo Units Available (show, don't tell)
- ✓ Priority Support (dedicated account manager)
- ✓ Exclusive Territory Options (available in select regions)
- ✓ Co-Op Marketing Funding (helps you sell)

CTA Button: "Join Our Distributor Network"

SECTION 6: WHY DISTRIBUTORS CHOOSE CUT2D POINT

Replace "Why Cut2D Point?" section with:

BUILT FOR DISTRIBUTORS

"Premium Brand You Can Sell Proudly"

- Professional design, quality manufacturing
- Customers recognize premium positioning
- Easy to differentiate vs. cheap competitors

"Margins That Matter"

- Higher price point than manual shears
- Strong demand from progressive customers
- Less price pressure than commodities

"Support That Scales"

- You don't need 10 sales engineers
- Our materials, demos, and training do the work
- Your team can sell with confidence

"Growing Market"

- More customers upgrading to electric every year
- Less price competition (more brand-focused)
- Long-term growth opportunity for you

SECTION 7: CASE STUDIES (Expanded for Distributors)

Full Case Study Pages:

Case Study 1: "How Distributor ABC Captured Market Share"

- Before: Only selling manual shears, losing deals to competitors
- After: Added electric shear line, now selling 5+ units/month
- Key metrics: Sales growth, margin improvement, customer retention
- Download full case study PDF

Case Study 2: "System Integrator XYZ's Complete Solution"

- Built integrated cutting system using all 3 products
 - Became go-to premium provider in their market
 - Results: 40% margin improvement, doubled customer lifetime value
-

SECTION 8: RESOURCES FOR DISTRIBUTORS

NEW Section:

DISTRIBUTOR RESOURCES

Sales Tools:

- One-pagers (electric, manual, cornermate)
- Competitive positioning guide
- ROI calculator for your customers
- Email templates for outreach

Training:

- Product webinar (30 min)
- Technical specification deep-dive
- Customer demo techniques

Marketing:

- Co-branded case studies
- Social media templates
- Presentation deck (editable)
- Trade show materials

Support:

- Dedicated distributor hotline
- Technical Q&A
- Customer problem solver database

SECTION 9: THE PRESTIGE ANGLE

NEW Sub-Section (Premium Positioning):

"PROFESSIONAL SHOPS CHOOSE CUT2D POINT"

Why? Because electric precision cutting is no longer a luxury—it's a necessity for serious operations.

When your customer base is split between:

- Shops running on manual labor (commodity segment)
- Professional operations with modern equipment (premium segment)

You want to serve the premium segment. Higher margins.
Better customers. Sustainable growth.

Cut2D Point helps you make that positioning real.

tone & design shifts for premium positioning

Current (Avoid)

- Industrial brutalism (heavy shadows, dark backgrounds)
- Cost-focused language ("affordable," "budget-friendly")
- Feature-heavy (specs first)
- Dense information architecture
- Testimonials from unknown customers
- "Compare us to manual" (implies we're commodity)

New (Premium)

- Clean, elegant, refined design
- White space and breathing room
- Capability-focused language ("precision," "professional," "premium")
- Story-driven (why upgrade, who upgrades, results)
- Testimonials from recognizable businesses/leaders
- "Choose electric" (implies it's the obvious choice)
- Subtle luxury touches (gold accents ● #D4AF37 used sparingly, refined fonts)
- Professional photography, not stock images
- Case studies from aspirational customers

COLOR & DESIGN ADJUSTMENTS FOR PREMIUM

Colors (Same Hex Codes, Different Application)

- **Blue #25A7E2:** Premium accent, trust, professional
- **Gray #58585A:** Refined, sophisticated
- **White #FFFFFF:** Luxury space, breathing room
- **Gold #D4AF37:** Used sparingly (buttons, borders) for premium feel

Font Sizing & Spacing

- Larger margins (more white space = premium feel)
- Bigger line-heights (easier to read, more elegant)
- Headlines larger and bolder (confident, not small/timid)

Photography Style

- Studio-lit, clean backgrounds
- Professional product photography (not stock images)
- Show precision in action (cutting edges, details)
- Distributor/customer environments (not just factories)

Button Styling

- Refined, not flashy (subtle hover effects)
- Gold accents on premium CTAs ("Join Distributor Program")
- More padding (bigger buttons = premium)

NAVIGATION UPDATES FOR DISTRIBUTORS

Header Nav (Updated)

Logo | Products | Distributor Program | Resources | Request Demo

Added "Distributor Program" section with:

- Program overview

- How to apply
- Benefits
- Approved distributors map (optional)
- FAQ
- Contact distributor@c2dp.com

"Resources" dropdown includes:

- Product specs
 - Case studies
 - Sales materials
 - Training portal
 - Co-op marketing info
-

MESSAGING FRAMEWORK

Old Messaging (End-User Focused)

"Cut2D Point eliminates inconsistent cuts and saves you money."

New Messaging (Distributor-Focused)

"Cut2D Point is the premium electric shear that lets you serve professional operations and expand your margins."

KEY METRICS TO HIGHLIGHT (For Distributors)

NOT: "We've sold 500+ machines" **YES:** "200+ distributors serving 500+ customers"

NOT: "Customers save \$47K per year in scrap" **YES:** "Distributors enjoy 25% gross margins | Customers see ROI in 8-12 months"

NOT: "45% faster production" **YES:** "Your customers get 45% faster production → they come back to you"

HERO VIDEO SPECIFICATION (3-Product Showcase)

See separate detailed spec below

FOOTER UPDATES

Add distributor-specific section:

FOR DISTRIBUTORS:

- Distributor Program
- Apply Now
- Existing Partner Portal
- Sales Tools
- Training

FOR END CUSTOMERS:

- Find a Distributor
 - Request Demo
 - Download Specs
 - FAQs
 - Case Studies
-

CONTENT PRIORITIES (For Distributors)

High Priority

1. Distributor program details
2. Margin/ROI data (for distributor pitch to customers)
3. Case studies from distributors
4. Training materials
5. Sales tools and templates

Medium Priority

6. Product specs (distributor needs to understand)
7. Customer testimonials (proof it sells)
8. Premium positioning (brand strength)

Lower Priority

- Deep technical specs (distributors don't need all details)
- Manufacturing details (not relevant)

- Company history (nice-to-have, not critical)
-

CONVERSION GOALS (Distributor-Focused)

Primary: Distributor applications / Distributor partner inquiries **Secondary:** Demo requests (for distributor's customers) **Tertiary:** Resource downloads (sales materials, specs, case studies)

Expected Results:

- 5-10% of distributor traffic applies for program
 - Each distributor generates 5-20 customer leads/year
 - Lifetime value = significant partnership
-

END OF REVISED BRIEF

Key Takeaway: This is not a consumer website. It's a **partner/distributor sales tool**. Every section serves the goal of attracting premium distributors and giving them the tools to sell effectively to their customers.
